R·CHENG

The Link & Co 05+ 2.0TD Performance Package is a stunning SUV that combines sleek design with exceptional performance. With its 2.0-liter turbocharged engine, this badass crossover delivers excellent horsepower and torque, providing an exhilarating driving experience. The vehicle's standard front-wheel drive can be upgraded to all-wheel drive with the optional AWD system, further enhancing its off-road capabilities. Boasting a unibody construction, the 05+ 2.0TD weighs less than its traditional SUV counterparts, resulting in improved fuel economy and increased cargo space, and a more agile, car-like ride. Additionally, the car's top-tier specs include high-performance brakes and wheels, and a tweaked suspension for enhanced handling and grip. While it may not excel at towing or venturing off-road like traditional SUVs, the Link & Co 05+ 2.0TD Performance Package is the perfect choice for drivers seeking an agile, powerful crossover that excels on paved roads.
